SUMMARY

Final-year B.E. Computer Engineering student with hands-on experience in Data Analytics, Python, SQL, Excel and Power BI. Currently working as a Data Analyst Intern at Ekatt(a) Enovators, with practical exposure to data preparation, analysis, visualization and reporting. Strong foundation in DSA, OOP, DBMS, Linux and cloud computing. Seeking entry-level Data Analyst, Business Analyst or AI/Data opportunities.

SKILLS

Data Analytics: Python, SQL, Excel, Power BI, Pandas, NumPy, Data Cleaning, EDA, Data Visualization, Statistics, Dashboarding

Programming: Python, Java, C, C++, JavaScript, HTML, CSS

Databases & Core: SQL, DBMS, Data Structures & Algorithms, OOP, Software Engineering

Cloud & Tools: AWS, Google Cloud, Linux, Git, GitHub, Jupyter Notebook

AI/GenAI: Python, Generative AI, NLP, LLM, Prompt Engineering, Conversational AI, Streamlit, Git & GitHub

EXPERIENCE

Data Analyst Intern | Ekatt(a) Enovators | Chhatrapati Sambhajnagar, Maharashtra | Aug 2026 – Present

- Working on practical data analytics tasks involving data preparation, analysis, visualization and reporting.
- Applying Python, SQL, Excel and Power BI concepts to interpret data and communicate actionable insights.
- Exploring AI-assisted workflows and strengthening analytical problem-solving through industry-oriented assignments.

PROJECTS

Student Management System | Java | Swing | OOP | ArrayList

- Developed a Java Swing desktop application to manage student records.
- Implemented Add, Delete, View and Clear functionality using ArrayList.
- Applied OOP concepts including classes, objects, encapsulation and event handling.

AI Counselling Chatbot | Python | Generative AI | NLP | LLM | Prompt Engineering | Streamlit

- Developed an AI-powered counselling chatbot to provide personalized career, education, and skill-development guidance.
- Implemented Generative AI, NLP, and LLM-based conversational capabilities to understand user queries and generate relevant responses.
- Designed prompt engineering techniques to improve response quality, relevance, and consistency.
- Built an interactive chatbot interface for real-time user conversations and personalized recommendations.
- Applied AI concepts to solve a practical problem in career exploration and student counselling.

EDUCATION

Bachelor of Engineering (B.E.) – Computer Engineering | International Centre of Excellence in Engineering & Management | 2024–2027

University: Dr. Babasaheb Ambedkar Marathwada University

CERTIFICATIONS

AWS Certified Machine Learning Essentials for Business and Technical Decision Makers | Amazon | Apr 2024

AWS Certified Machine Learning Terminology and Process | Amazon | Apr 2024

Python Programming Certification

ADDITIONAL INFORMATION

Interests: Data Analytics, Artificial Intelligence, AI Counselling, Cloud Computing, Software Development, Problem Solving
